

Press Release

Pylones Hellas at HPE Discover More Athens

Athens, Greece – 10 October 2019 – Pylones Hellas, a provider of advanced ITC solutions to medium and large enterprises, with presence for more than 20 years in Greece, Cyprus and the Balkans, proudly participated as a Sponsor and Event Partner at HPE Discover More Athens that took place at the Athens Concert Hall on October 9th.

HPE Discover More is a technology event organized by Hewlett Packard Enterprise in more than 35 cities around the world, including Athens.

At the technology forum, Pylones Hellas, as HPE's Certified Silver Partner, presented in its booth digital solutions and applications that enable businesses to improve their interaction with customers and partners and increase their profitability.

These advanced solutions, also based on HPE's Hybrid-cloud technologies, accelerating and facilitating the digital transformation of businesses, by giving the opportunity to utilize the "unused" data and information which are "hidden" in data centers.

Mr. Emmanuel Netos, General Manager of Pylones Hellas, stated during the HPE Discover More Athens: "The world of technology is about to face two major facts in the near future. The Brain Drain phenomenon is particularly affecting highly specialized industries, including the IT sector. In Greece we have many capable "minds" especially in the field of technology. It's up to us to keep them in our country. Furthermore, the technology is also shifting from huge data centers to small data centers scattered everywhere. The explosion of devices with built-in intelligence, hyper-connectivity, and full of data is transforming markets and transforming the way we live and work. In the cloud world, the future lies in speed. We offer technologies and solutions that can make business processes smarter and more efficient. "

The event concluded with the CEO discussion panel in which featured the leaders of the largest Greek technology companies, including Pylones Hellas which represented by Mr. Emmanuel Netos. The panel focused on the impact of digital transformation on businesses, and how this affects the future of both business and citizens themselves.

About Pylones Hellas
