

Press Release

Pylones Hellas the only Greek company that holds back2back the "Cybersecurity Made™ in Europe" label

Athens, 01 September 2022 [Pylones Hellas](#), a provider of advanced IT solutions to medium and large enterprises, with presence for more than 25 years in Greece, Cyprus and the wider region of South-eastern Europe as IT systems & cybersecurity Integrator, was recognized and certified for the 2nd consecutive year for its services and products that offers, as a "[Cybersecurity made in Europe](#)" company.

Pylones Hellas, **being the first and only Greek company among 90 other European cybersecurity companies**, enjoys the honor of being certified for the 2nd consecutive year with the "Cybersecurity made in Europe" quality assurance recognition by the [European Cyber Security Organization \(ECSO\)](#)! At the same time, the company has the right to hold the corresponding label, designed to promote European companies specializing in cybersecurity.

This certification is awarded to European companies that provide reliable cybersecurity products and services. By designing state-of-the-art cybersecurity solutions and based on products and services from a wide range of innovative partners such as F5, Okta, Checkpoint, Palo Alto, AWS, Microsoft and Forcepoint, company aims to enable businesses to simplify their digital challenges in the most secure way by providing unique digital experiences!

Mr. Emmanuel Netos, CEO of Pylones Hellas mentioned "With the 'certification' as a Cybersecurity Made in Europe company for the second consecutive year, we prove once again our ability and commitment to provide secure and functional solutions to both our partners and customers. The fact that we are the only company that has achieved this so far makes it an even more important achievement, confirming that we are one of the pioneer cyber partners in the Greek market. The security of our products and services has always been a non-negotiable part for us and this certification gives us the impetus to continue investing in this direction!"

As a recipient of the label, Pylones Hellas follows the strict requirements for data protection in accordance with the General Data Protection Regulation (GDPR) and data security in accordance with the guidelines set by the European Union Agency for Cybersecurity (ENISA). Pylones' customers can thus be assured that the cybersecurity products and services provided contain no backdoors and are designed to be secure all around!

Why did we receive the label?

The label "Cyber Security Made in Europe" not only identifies Pylones Hellas as a company founded upon European values but recognizes us as a trustworthy, reliable, and highly competent cybersecurity service provider.

About Pylones Hellas

Pylones Hellas, member of the Cypriot group P.M.Tseriotis Ltd, is active for more than 25 years in the field of digital technologies and internet security. The company combines the services of both IT systems integrator and IT cybersecurity integrator, consisting a pioneer IT provider for the Greek market. Based on three significant pillars Security, Optimization and High Availability, Pylones Hellas provides cutting-edge technology solutions, on any scale, in multiple demanding sectors such as Telecommunications, Hotels, Financial institutions and companies that base their business on the Internet, while continuing updating its customers' Information Technology Infrastructure, to provide, in turn, a high level of digital services to their customers.

Pylones Hellas are cooperating as partners with F5, AWS, HPE, IBM and Microsoft offering numerous solutions in areas such as security, wired and wireless networks, storage, business critical systems, datacenters and cloud.
