

## Press Release

### **Pylones Hellas & CrowdStrike partners to Stop Breaches in Greece & Cyprus**

**Athens, 20 October 2022** – [Pylones Hellas](#), a provider of advanced IT solutions to medium and large enterprises, with presence for more than 25 years in Greece, Cyprus and the wider region of South-eastern Europe as IT systems & cybersecurity Integrator, is pleased to announce a strategic partnership with [CrowdStrike](#), a global cyber security leader that has redefined modern security with the world's most advanced cloud-native platform for protecting critical areas of enterprise risk.

This alliance will enable Pylones to extend even more its cybersecurity portfolio by leveraging the [CrowdStrike Falcon® platform](#), bringing to Greek and Cypriot enterprises a cloud-architected endpoint security solution that offers advanced threat protection capabilities with the visibility and tools to identify, investigate and mitigate breaches remotely and immediately.

#### **[CrowdStrike Falcon® platform](#): The Key to Stopping Breaches**

The CrowdStrike Falcon® platform is powered by cloud-scale AI running on the proprietary Threat Graph database and patented smart-filtering technology to deliver rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value. CrowdStrike's technology does not rely on traditional systems based on periodic signature updates, allowing it to provide advanced protection 24/7, regardless of whether or not computers are connected to the Internet.

At Pylones, we enable our customers to achieve cyber security maturity through a combination of solutions and services, transforming their organization security posture. This new partnership with CrowdStrike further strengthens our technology capabilities to provide customers with innovative cybersecurity solutions and services.

**Mr. Emmanuel Netos, CEO of Pylones Hellas**, stated about the new cooperation: *"Is common secret that CrowdStrike is generating a lot of excitement and interest from the industry. From the other hand, organization's fear being compromised by ransomware drive them looking for best of breed protection. This matching of demand and supply generated this new alliance with CrowdStrike which will allow us to stand out even more from the competition by approaching the market with a Managed Detection and Response (MDR) solution that brings together the state-of-the-art technological capabilities and experience of both companies. It is a significant step forward in our purpose to always simplifying the digital challenges of our customers with secure solutions."*

## About Pylones Hellas

Pylones Hellas, member of the Cypriot group P.M.Tseriotis Ltd, is active for more than 25 years in the field of digital technologies and internet security. The company combines the services of both IT systems integrator and IT security integrator, consisting a pioneer IT provider for the Greek market. Based on three significant pillars Security, Optimization and High Availability, Pylones Hellas provides cutting-edge technology solutions, on any scale, in multiple demanding sectors such as Telecommunications, Hotels, Financial institutions and companies that base their business on the Internet, while continuing updating its customers' Information Technology Infrastructure, to provide, in turn, a high level of digital services to their customers.

Pylones Hellas are cooperating as partners with F5, AWS, HPE, IBM and Microsoft offering numerous solutions in areas such as security, wired and wireless networks, storage, business critical systems, datacenters and cloud.

## About CrowdStrike

[CrowdStrike](#), a global cybersecurity leader, is redefining security for the cloud era with an endpoint and workload protection platform built from the ground up to stop breaches. The CrowdStrike Falcon® platform's single lightweight-agent architecture leverages cloud-scale artificial intelligence (AI) and offers real-time protection and visibility across the enterprise, preventing attacks on endpoints and workloads on or off the network. Powered by the proprietary CrowdStrike Threat Graph®, CrowdStrike Falcon correlates 5 trillion endpoint-related events per week in real time from across the globe, fueling one of the world's most advanced data platforms for security.

With CrowdStrike, customers benefit from better protection, better performance and immediate time-to-value delivered by the cloud-native Falcon platform. There's only one thing to remember about CrowdStrike: We stop breaches. Qualifying organizations can gain full access to Falcon Prevent™ by starting a free trial.
